

Expert Providers Deliver School Emergency Management Solution

THE CLIENT

Cumberland County Technology Education Center (CCTEC) is a state-of-the-art vocational high school located in Vineland, New Jersey. Drawing students of diverse socioeconomic backgrounds from Cumberland County, the school was founded with the goal of being at the forefront of integrating technology and academics.

THE CHALLENGE

With recent issues in school safety in the news, CCTEC had been exploring ways to enhance communication among teachers, students, and parents. True to its vision, the school district wanted to make safety and security a top priority in the design of a comprehensive new communication system.

ComTec's integrated mass notification system has delivered the community a state-of-the-art platform that has exceeded all expectations."

– Gene Mercoli, Business Administrator,
Cumberland County Technology Education Center

THE SOLUTION

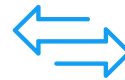

After analyzing CCTEC's situation, ComTec created an integrated mass notification system tailored to its communication needs. Incorporating integrated hardware and software, the system not only provides efficient daily communication, it will also prove indispensable in the case of an emergency. This new set-up includes:

Alert portal

Phone system
integration

Access control
integration

Public address
system

Mobile phone app

SMS notification
system

THE BENEFITS

Across the board, ComTec equipped CCTEC with better communication solutions, resulting in a safer overall environment. With all the technology and procedures in place to handle both everyday and emergency situations, staff, students, and parents can feel confident that the school has the resources to handle any scenario.

A fully integrated educational-based communications platform is not only a life-safety investment for the children and community, it also enables the entire system to run with ease and efficiency. Cumberland County Tech wanted to be at the forefront of next generation technology, and now they are.

– Mike Vertolli, President and CEO, ComTec Systems
